

PRODUCT SPECIFICATION · POINT OF SALE FOR EVERY KIND OF SHOP

Aubree One

Aubree One is a friendly till for any shop, from boutiques, grocers and gift shops to market halls, cafés and salons. It works with your WooCommerce shop, keeps selling when the Wi-Fi drops, runs your own local delivery and brings your staff rota along for the ride.

73
features, all live today

Works offline
Every sale is saved on the till first.

One stock figure
Online and in person, always in step.

Your own delivery
Local delivery with live tracking, no commission.

Customer screen
Basket and total on a second screen.

Rota built in
Clock in at the till with Aubree Rota.

Made for every kind of shop

Boutiques and fashion · Grocers and farm shops · Gift and card shops · Florists · Bakeries and delis · Market halls · Cafés and takeaways · Salons and barbers · Hardware and pet shops · Pop-ups and stalls

Selling at the till

- **Works offline** — Keep selling when the Wi-Fi drops.
- **Scan, tap or search** — Barcodes, favourites and filters for a quick checkout.
- **Park a sale** — Put a sale on hold and serve the next customer.
- **Custom items and notes** — Sell anything at a typed price, and add notes.
- **Add-ons and extras** — Extra shot, oat milk, gift wrap: priced and on the ticket.
- **Discounts and price changes** — Line and whole-sale discounts, with limits you set.
- **Coupons and automatic offers** — 3 for 2, buy one get one free and WooCommerce coupons.
- **Exchanges** — Swap one item for another in a single sale.
- **Click and collect** — Online orders waiting for pickup, right on the till.
- **Lay-away and deposits** — Take a deposit now and the rest later.
- **Age checks** — Challenge 25 prompts for alcohol, knives and more.

Payments

- **Card readers** — Take cards with a Stripe reader.
- **takepayments card machines** — Use a takepayments terminal at the till.
- **Tap to Pay** — Take contactless cards on the phone itself.
- **Split payments and change** — Part cash, part card, with change worked out.
- **Gift cards and store credit** — Sell gift cards and refund to store credit.
- **Card fee and minimum spend** — Add a card fee or set a card minimum.

Stock and products

- **Live stock with WooCommerce** — Sell online and in person from the same stock.
- **Deliveries and stock counts** — Receive and count stock from the till.
- **Low-stock alerts** — Know what's running low before it runs out.
- **Purchase orders** — Order from suppliers and receive against the order.
- **Cost price and profit** — See what you really make on each product.
- **Label printing** — Barcode and price labels for your products.
- **Aubree Menu Snap** — Photograph your menu and every item is set up for you.
- **Bring your products with you** — Import from Square, Shopify, Lightspeed or SumUp.

Delivery and collection

- **Delivery and collection, with your own drivers** — Take delivery and collection orders on your own website, with no commission.
- **Delivery areas and fees** — Choose where you deliver, what it costs and the smallest order.
- **Live driver tracking** — Customers see their driver on a map, with an arrival time.
- **Updates for your customers** — Customers follow their order from accepted to delivered.
- **Driver earnings** — Every delivery's fee kept in a ledger, ready to pay your drivers.

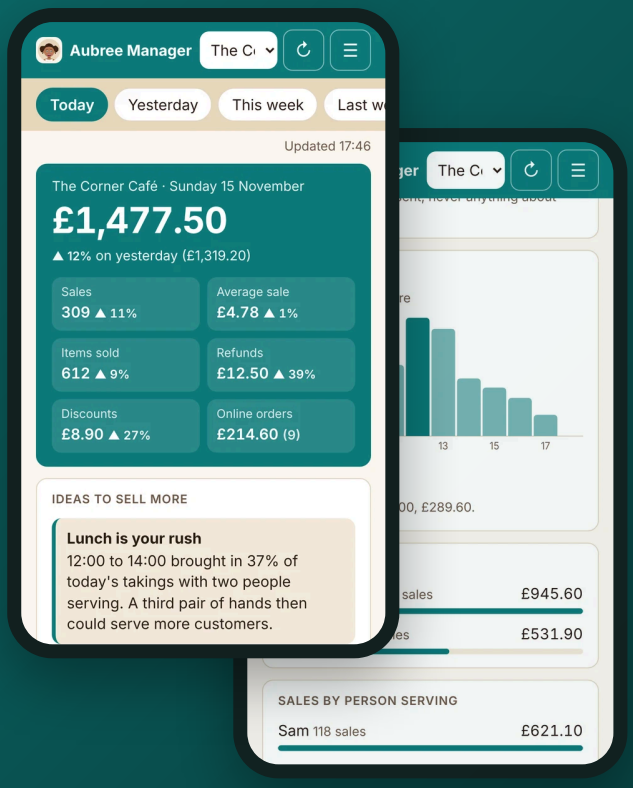

AUBREE MANAGER · INCLUDED ON PRO AND UP

Your shops, in your pocket.

When you run a shop you can't stand behind the counter all day, and you shouldn't need a laptop and a spreadsheet to know how it went. Aubree Manager is a separate app for owners and managers that answers the questions you actually ask: how did we do today, is it better than last week, what's selling, and what's sitting on the shelf.

It reads the figures straight from your tills and stock, for one shop or all of them added together, and turns them into plain words with kind, practical ideas to sell more.

manager.aubreeone.app

What it shows you

Any day, week or month.
Takings, sales and average sale, each compared with the period before.

Sales by the hour.
See your rush and your quiet spells, and staff the shop to match.

Best and slow sellers.
What's flying, what's slowing down, and stock that hasn't sold at all.

Every till and every shop.
Takings by till, by person serving and by location, or all your shops together.

Ideas to sell more.
Plain tips from your own figures, and AI ideas on plans that include it.

Look, don't touch.
It only reads figures, so a lost phone can't ring up sales or change anything.

Up and running in a minute

1
Open it
Go to manager.aubreeone.app on any phone and add it to your home screen.

2
Connect
Scan the code from your shop's WordPress. Add as many shops as you run.

3
Check in
See today, this week or this month, for one shop or all of them together.

Aubree Manager on a phone. Sample figures. Read-only: it can't ring up sales or change prices or stock.

Café and hospitality

- **Café mode**
  Tables, open tabs and a kitchen screen.
- **Self-service kiosk and table ordering**
  Customers order and pay at a kiosk or from their table.
- **Kitchen screen**
  New orders on a screen in the kitchen.
- **Tips**
  Let customers add a tip when they pay.
- **Bookings and appointments**
  Customers book online; you see the diary at the till.

Customers and loyalty

- **Customers and loyalty points**
  Find or add a customer and reward them.
- **Purchase history**
  A customer's past orders, online and in person.
- **Email receipts and marketing opt-in**
  Paperless receipts and consent done properly.
- **Text receipts**
  Receipts by text message.

Staff and Aubree Rota

- **Staff PINs and roles**
  Each person signs in with their own PIN.
- **Custom permissions**
  Choose exactly what cashiers can do.
- **Clock in at the till**
  Staff scan a code on the till to clock in.
- **Sales by staff member**
  Who sold what, for commission and coaching.

Insights and AI

- **Phone dashboard**
  Today's takings live, from anywhere.
- **Aubree Manager app**
  Any period, every shop, best and slow sellers, on your phone.
- **End-of-day email**
  The day's takings and cash-up in your inbox.
- **Sales reports**
  By day, hour, product, staff and stallholder.
- **Insights for several shops**
  Make more and lose less across your locations.
- **AI analysis of Insights**
  A weekly briefing, and answers to your questions.
- **Alerts on your phone**
  Big refunds, no-sale drawer opens and more, as they happen.
- **Accounting export**
  Send your takings to Xero or QuickBooks.
- **VAT return figures**
  The nine boxes, from every sale online and in person.

Multi-site and Enterprise

- **Several locations**
  Stock for each shop or stall, with transfers.
- **Prices by location**
  A different price at any shop or stall.
- **Several tills**
  As many tills as you need, each with its own name.
- **Many sellers, one till**
  Sell for every stallholder from a shared counter.
- **Head office view**
  Every location side by side.
- **Single sign-on**
  Sign in with Google or Microsoft.
- **API keys and webhooks**
  Your sales and stock in your own systems.

Security and data

- **Cash-ups and till audit**
  Spot mistakes and missing money early.
- **Till audit download**
  Every till action, as a spreadsheet.
- **Nightly backups**
  Your shop backed up off the server every night.
- **Your data stays yours**
  Sales and customers live in your own shop.
- **Privacy tools**
  GDPR export and erase, and privacy policy wording.

Set-up and devices

- **Guided set-up**
  Tell us your type of business and we'll do the rest.
- **Connect a till with a QR code**
  Scan a code to connect a new till.
- **Your brand, your way**
  Your logo, colours and receipt text.
- **Any currency, any tax**
  Pounds, euros, dollars and your local tax rules.
- **Android tablets and phones**
  An app for Android, or any modern browser.
- **iPad and iPhone**
  The same till on iPad and iPhone.
- **Receipt printer and cash drawer**
  Print receipts and pop the drawer on cash sales.
- **Customer display (second screen)**
  Show the basket and total on a second screen.
- **Scales**
  Sell loose goods by weight.
